Global Data Centres Council

What is the Global Data Centres Council ?

Accelerated by the pandemic, the focus on alternative real estate sectors has significantly increased over recent years, especially those closely linked to technology, such as data centres. “One distinct trend this year is the focus on alternatives – those sectors outside the traditional big three of office, retail, and industrial. Survey respondents predict equity and debt will be most plentiful for alternative real estate asset classes, while beds-based asset classes – alongside sectors like... data centres ...– dominate the top of the sector rankings... Data centres are perceived as the most promising sector in terms of both their income profile and development potential.” – Emerging Trends in Real Estate - Europe 2022

The ULI Global Data Centres Council includes senior level representatives from a range of companies active in the field of data centres, including operators, developers, architects and investors from around the world. The forum’s purpose is to provide an open conversation about current trends, e.g. related to technology, ESG and location, as well as the outlook for the industry. The council is global and meets in a virtual format.

WHAT IS A PRODUCT COUNCIL?

<i>Topic-specific forums</i>	Sector or topic specific forums where industry leaders meet, exchange ideas, share best practices and foster thought leadership in their specific sector of the real estate market.
<i>International, senior, multi-disciplinary membership</i>	Consisting of a genuinely international and multi-disciplinary membership, the Councils provide a unique platform to learn from peers in the same sector who are operating in different geographical markets, as well as help shape the future of pan-European real estate.
<i>Topical, provocative and future thinking</i>	Feedback from members tells us that these meetings add value by facilitating a rich, open dialogue for industry leaders which is topical, provocative and future thinking. They aim to take down professional barriers to allow a free exchange of ideas and experience, and help careers by enabling members to steer their ideas and develop true friendships over time across a range of professions.
<i>When do the Councils meet and where?</i>	Membership of each Council is capped at a maximum of 50 people to ensure the quality of personal interaction between participants. The council meets 2 - 3 times a year in a virtual format to facilitate global engagement across Americas, Asia-Pacific and EMEA time zones.

MESSAGES FROM ULI LEADERS

“We are really excited for our members to come together and share their knowledge.”

Am I eligible to join?

To join a Product Council, you need to be a full member of ULI. If your membership is through a corporate package with your company, we are happy to check if you can be added to the company’s roster.

How do I join?

There is a short approval process, with approval by the chair. In the first instance please send a short bio or CV with your Council preference to Louisa Batts, Louisa.Batts@uli.org.

Costs

The annual fee for membership of a Product Council is €399.

For further information
