# Logistics Council

## What is the Logistics Council?

The Logistics Council is a diverse group of high level professionals from across Europe, with a core mission to share and explore best practices and innovative solutions for logistics in European real estate.

The council aims to facilitate discussions and produce research across a wide range of topics, including sustainability, innovation, technology, automation and access to land, providing valuable insights through a shared knowledge and experience.

### WHAT IS A PRODUCT COUNCIL?

<i>Topic-specific forums</i>	Sector or topic specific forums where industry leaders meet, exchange ideas, share best practices and foster thought leadership in their specific sector of the real estate market.
<i>International, senior, multi-disciplinary membership</i>	Consisting of a genuinely international and multi-disciplinary membership, the Councils provide a unique platform to learn from peers in the same sector who are operating in different geographical markets, as well as help shape the future of pan-European real estate.
<i>Topical, provocative and future thinking</i>	Feedback from members tells us that these meetings add value by facilitating a rich, open dialogue for industry leaders which is topical, provocative and future thinking. They aim to take down professional barriers to allow a free exchange of ideas and experience, and help careers by enabling members to steer their ideas and develop true friendships over time across a range of professions.
<i>When do the Councils meet and where?</i>	Membership of each Council is capped at a maximum of 50 people to ensure the quality of personal interaction between participants. The Councils meet in person twice a year, once in February to coincide with the ULI Europe Conference and in the second half of the year. Councils are now also holding up to four virtual meetings a year.
