ENHANCE YOUR ULI MEMBERSHIP

Join a pan-European Product Council

What is a Product Council?

Topic-specific forums  Sector or topic specific forums where industry leaders meet, exchange ideas, share best practices and foster thought leadership in their specific sector of the real estate market.

International, senior, multi-disciplinary membership  Consisting of a genuinely international and multi-disciplinary membership, the Councils provide a unique platform to learn from peers in the same sector who are operating in different geographical markets, as well as help shape the future of pan-European real estate.

Topical, provocative and future thinking  Feedback from members tells us that these meetings add value by facilitating a rich, open dialogue for industry leaders which is topical, provocative and future thinking. They aim to take down professional barriers to allow a free exchange of ideas and experience, and help careers by enabling members to steer their ideas and develop true friendships over time across a range of professions.

FREQUENTLY ASKED QUESTIONS

What sectors/topics are there?  There are currently 13 European Product Councils; each focusing on a specific sector or topic:

- Affordable Living
- Global Data Centres
- Hotels, Destinations and Resorts
- Life Science & Healthcare
- Living Concepts
- Logistics
- Office and Mixed-Use
- Retail and Entertainment
- Sustainability
- Technology and Real Estate
- Urban Regeneration
- Urban Infrastructure
- Waterfront Cities

When do the Councils meet and where?  The Councils meet twice a year, once to coincide with the ULI Europe Conference and in the second half of the year. Some Councils initiate/undertake research projects and organise study tours and webinars to give members additional engagement opportunities between meetings. Most councils supplement their in-person council days with virtual meetings.

How many people attend?  Membership of each Council is capped at a maximum of 50 people to ensure the quality of personal interaction between participants.

Am I eligible to join?

To join a Product Council, you need to be a full member of ULI. If your membership is through a corporate package with your company, we are happy to check if you can be added to the company’s roster.

How do I join?

There is a short approval process, with approval by the chair. In the first instance please send a short bio or CV with your Council preference to Louisa Batts, Louisa.Batts@uli.org.

Costs

The annual fee for membership of a Product Council is €649.

The Product Councils

ULI Europe currently has thirteen Product Councils, each focusing on a specific sector of the real estate industry.

**AFFORDABLE LIVING COUNCIL**
The Affordable Living Council’s mission is to share best practices, lessons learned and innovative solutions from a diverse group passionate about the creation, expansion and retention of high quality and sustainable housing that is affordable for those in need and fits their living needs in our European cities as a key success factor for vibrant, dynamic, inclusive and economically successful cities.

**GLOBAL DATA CENTRES COUNCIL**
Accelerated by the pandemic, the focus on alternative real estate sectors has significantly increased over recent years, especially those closely linked to technology, such as data centres. "One distinct trend this year is the focus on alternatives – those sectors outside the traditional big three of office, retail, and industrial. Survey respondents predict equity and debt will be most plentiful for alternative real estate asset classes, while beds-based asset classes – alongside sectors like... data centres ...– dominate the top of the sector rankings...Data centres are perceived as the most promising sector in terms of both their income profile and development potential."— Emerging Trends in Real Estate - Europe 2022

The ULI Global Data Centres Council includes senior level representatives from a range of companies active in the field of data centres, including operators, developers, architects and investors from around the world. The forum's purpose is to provide an open conversation about current trends, e.g. related to technology, ESG and location, as well as the outlook for the industry. The council is global and meets in a virtual format.

**HOTELS, DESTINATIONS AND RESORTS COUNCIL**
Whether at the heart of a local economy based on tourism or providing accommodation for business travellers in a major city, hotels and resorts are an important part of the real estate landscape.

The Hotels, Destinations and Resorts Council brings together leaders from across the spectrum of developers, investors and operators to discuss the issues and opportunities faced by our sector.

**LIFE SCIENCE & HEALTHCARE COUNCIL**
The Council’s mission is to provide a space for life science & healthcare property leadership to engage in industry wide challenges, share local and global best practices and provide a voice to the industry in the wider property & local community context. The Council has a particular interest in educating the wider market about its industry, but also to engage in issues that are common to the public and private sectors and to both for-profit and not-for-profit property operators, developers, financial investors and strategic owners.

**LIVING CONCEPTS**
Typologies within the BTR, student, senior and coliving sub-sectors are evolving and new concepts may arise; reflecting urbanism, growing needs, our changing demographics and the way we live. The Living Concepts Product Council will explore opportunities and challenges related to the investment, development, regulation and operations of these evolving concepts in Europe; along with the roles of ESG and Technology.

**LOGISTICS COUNCIL**
The Logistics Council’s core mission is to share and explore best practices and innovative solutions for Logistics in European real estate. The Council aims to facilitate discussions and produce research across a wide range of topics, including sustainability, innovation, technology, automation and access to land, providing valuable insights through a shared knowledge and experience.

**OFFICE AND MIXED-USE COUNCIL**
The Office and Mixed-Use Council looks to keep its members at the forefront of this changing world by sharing lessons from cities across Europe as well as bringing industry leaders together to examine all aspects of investment, financing, development, architecture, and sustainability.
Urban infrastructure is a vital element of every city. Cities cannot thrive without proper accessibility, dependable energy and water supplies, safe bridges and tunnels, attractive public spaces and amenities and high-quality schools and community centres. However, in many cities across the globe, developing and maintaining such infrastructure has become increasingly difficult. In Europe, urban austerity, increasing complexity and requirements (e.g. related to climate adaptation) and interdependencies with the broader built environment has put the quality and feasibility of projects increasingly under pressure. At the same time, the pandemic and war in Ukraine have significantly increased geopolitical uncertainty impacting on supply chains and energy provision, increasing the need to act and invest, e.g. in the energy transition. At the same time, user demand is changing. Popular concepts like ‘the 15-minute city’ underline the increased attention for the environment, equity and health and well-being among firms, governments, and citizens alike. Investors have an increased focus on ESG related matters, including climate adaptation and mitigation, social impact and diversity, equity and inclusion and realise the importance of high quality social, energy and transport infrastructure is key for the success of cities and their investments. The Urban Infrastructure Council will explore these issues.

Set against a backdrop of global retail and entertainment brands, the Council’s membership and content programme reflects the fact that the sector transcends geographical boundaries. As well as examining best practice in Europe, the Council draws ideas from both established and emerging markets to provide members with a clear insight of the market

The Council examines a wide range of issues from investigating new ways to measure the environmental performance or the social contribution made by individual buildings, through to the longer term planning considerations of European cities to ensure they are both successful and sustainable.

The ULI Europe Technology and Real Estate Council will focus on exploring how technology and innovation in real estate and urban development can enhance customer experience and quality of life.

ULI Europe’s Urban Regeneration Council fosters stronger interaction between city governments, real estate developers, practitioners and major institutional investors. It looks to share ideas and experiences from around the world to help provide insights into best practice in city development and urban regeneration.

Established in 2017, The Waterfront Cities Network, brings together several European cities with significant waterfront development interests and expertise to share experiences from across Europe. The network exchanges ideas and best practice, with a view to presenting waterfront investment opportunities in public forum.
