

ULI EUROPE CHAIRMAN **THIBAUT WESTON SMITH** **CO-FOUNDER CRAYON PARTNERS**

I have the privilege of representing a dynamic community of ambitious and talented young professionals, aged 35 and under, who are the future driving force behind transformative urban development.

The Young Leaders Group was created for the leaders of tomorrow to engage with today's decision makers. We provide our members with the tools and insights to grow their careers, develop their skills and experience, build their network, and navigate the complex cities of the built environment. To support this we have a wide range of activities including mentorship programmes, lunch and learn sessions, educational workshops, dedicated conferences, webinars, and many other local, pan-European, and global initiatives.

Our forum provides fertile ground for cultivating visionary ideas, hones leadership skills, and helps to forge invaluable connections. We foster a culture of collaboration where diverse backgrounds, expertise, and perspectives converge to spark innovation. Young Leaders exchange ideas and collaborate on forward-thinking projects; united by a shared passion for driving positive change, cultivating innovation, and questioning the status quo.

I am excited to see our high-energy and ambitious group growing by the day in Europe, contributing to shape the urban landscape of tomorrow and ensuring a legacy that future generations can be proud of.

Young Leaders: “The future driving force behind transformative urban development.”
